

“Nuclear History Summer Camp in Hiroshima 2025” Public Symposium

How can the world reduce its reliance on nuclear deterrence?

Participation
Free

In order to cultivate young people who can contribute to the abolition of nuclear weapons, Hiroshima Prefecture/Hiroshima Organization for Global Peace (HOPE) collaborate with Roma Tre University to hold a face-to-face intensive training camp, “The Nuclear History Summer Camp in Hiroshima 2025,” to learn about nuclear history and research methods, inviting young researchers in the nuclear field from 13 countries around the world, including Japan, to Hiroshima.

As part of this, a public symposium will be held where world-class lecturers and students participating in the training camp will exchange views on “How can the world reduce its reliance on nuclear deterrence?”

We hope you will join us!

Joseph F. Pilat

Program Manager, Center for National Security and International Studies, Los Alamos National Laboratory

David Holloway

Emeritus Professor, Stanford University

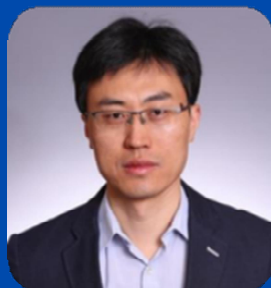

Mariana Budjeryn
